SEEKING JUSTICE FOR CAMP LEJEUNE MARINES

At the Law Offices of Evan M. Ostfeld, we are now handling litigation regarding the water contamination at the Marine Corps Base at Camp Lejeune, N.C. Between the years of 1953 and 1987, the water supply there was contaminated with hazardous chemicals found to be linked to numerous injuries, including:

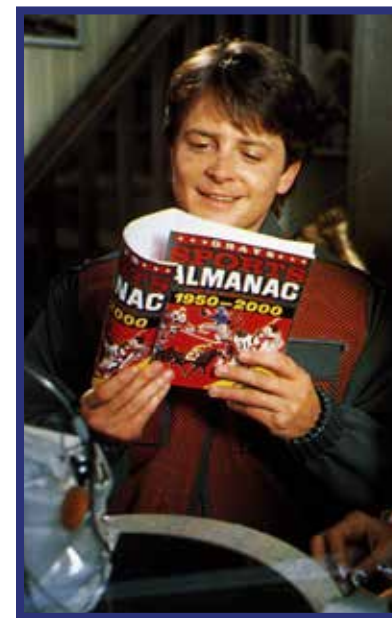

- Birth defects and complications
- Cancer
- Kidney disease
- Miscarriages
- Neurological defects
- Parkinson's disease
- Amyotrophic Lateral Sclerosis (ALS)
- As well as many other illnesses.

What's worse? The government knew about the issue but hid it from everyone! As a result, Congress just passed the Camp Lejeune Justice Act. This law allows military personnel, their families, and or civilian staff the ability to make a claim for injuries or the death of a loved one. They must have worked, served, or resided at Camp Lejeune during the affected time frame and used the water there for at least 30 days. Since the period to make a claim is very limited, you should consult with an attorney immediately. We welcome the opportunity to determine if you and or your family are entitled to significant financial compensation. While the federal government has now acknowledged

19 different medical conditions that can be caused by the contaminated water, compensation can be sought for dozens of additional injuries/illnesses. It's time to recover for all that you went through, including the pain and suffering. So if you, a family member, or loved one suffered from cancer, birth defects, Parkinson's disease, miscarriage, or any other conditions after working, serving, or residing at Camp Lejeune, contact us today. Our law firm and co-counsel handle these cases on a contingency basis. Meaning, the legal services are free unless there is a recovery. Let us help recover what you've lost while we focus on obtaining a recovery.

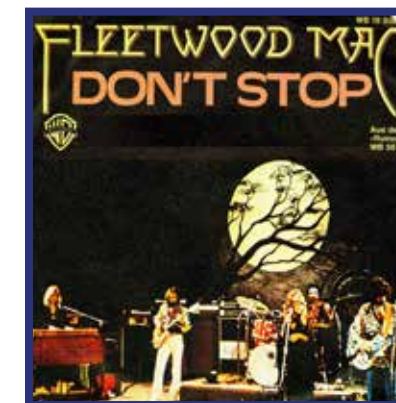

THE FUTURE?

No one really knows the **future**, unless you are a fortune-teller, call the Psychic Friends Network™, and/or have a copy of Grays Sports Almanac.

In my opinion, next to the "original" three "Star Wars" the escapades of Dr. Emmett Brown and Marty McFly driving the DeLorean in the "**Back to the Future**" series is among the greatest movie trilogies of all-time! Maybe the **future** is best described by my favourite Fleetwood Mac song, "Don't Stop," from their "Rumours" album.

*"Don't stop thinking about tomorrow
Don't stop, it'll soon be here
It'll be better than before
Yesterday's gone, yesterday's gone."*

Now I know what you are going to ask next! What does this all have to do with us?

I **knew** you would ask that question! How? Simple. It is because I was deemed to have a "sixth sense" while growing up as a young child in Phoenix, AZ. My parents actually had me tested for extrasensory perception (E.S.P.) So can I help the police solve crimes or pick the winning lottery numbers?

Sadly no. Hell, if I was actually that good, there would be no need for me to write this article, but I digress.

Anyway, I have been practicing law since 1993 handling workers' compensation and personal injury matters, but only for individuals and their families. More recently, the firm accepts cases nationwide for injuries caused by bad drugs and defective products like Zantac, Roundup, J&J Baby Powder, 3M earplugs, hernia mesh implants, and CPAP machines, just to name a few of them. Since my crystal ball* is not currently working to see the **future** outcome of your case, we don't charge anything unless there is a recovery, so there is no risk.

*Regretfully, due to supply chain issues, the "prediction" part of my crystal ball remains on back order. That being said, with the firm's vast legal knowledge and experience with insurance company tactics, we have great **future** insight into formulating successful strategies to help maximize the value of the claim and to defeat the evil "Tannens" of the world! So, if you are wondering what the **future** has in mind for your injury case and there are many things you need to know, call The Referral King® (844) 411 KING (411-5464) so we can assist and prepare thee for **future** legal consequences.

Godspeed,

-King E

REFERRALS WELCOME!

Thanks for allowing us to represent you. Hopefully, we've earned your trust for future referrals of friends and family, even if the matter occurred outside of Florida. We are only a call, text, or email away!

Where There Is a Will, There Is a Way...

Nobody likes thinking about their own death, but the simple truth of the matter is that people die every day. That's why it's so very important to have an estate plan in place to ensure that your loved ones are taken care of. Everybody needs a will so hire an attorney to make sure that your wishes are followed. It doesn't matter if you're relatively healthy or have few assets. Don't delay. Contact an attorney and make your estate plan today!

Provides Peace of Mind

Without a will or estate plan in place, your family will need to proceed through the courts to figure out who receives what. Do you really want the state making decisions for you? Having one, you can name an executor to carry out the terms of the will pursuant to the exact wishes. It also saves time, money and anxiety for your loved ones.

Who Will Take Care of Your Children, Pets and Home?

If you're a parent, the will shall determine who'll become the guardian of any minor children. Without it, the court decides! Additionally, pets are seen as property, so one needs to appoint someone for them. Your dog Buddy should be happy, right? The same may be true for a house. Creating a will is not typically expensive, nor does it have to be a stressful experience. Should you require a lawyer who practices in this area, just give The Referral King® a call at **(844) 411-KING (411-5464)**.

3M Is Not Done Paying Out — They're Just Getting Started.

Surely, you've heard of the dual-ended 3M Combat Arms Earplugs lawsuit. It is the largest mass tort in history. From the years of 2003–2015, 3M was the exclusive supplier of selective attenuation earplugs for our military. These cases have all been transferred to federal court in Pensacola, FL. The plaintiffs (our brave service members) all similarly alleged that they have sustained injuries from using the 3M earplugs during military service. Common injuries include unilateral and bilateral hearing loss and tinnitus (ringing in the ears). Unfortunately the earplugs did not form a proper seal while inserted. Simply put, they did not work and thereby caused hearing damage! Today, the first round of trials have concluded with "The Good Guys" (U.S. military) winning 13 out of 19 cases for a whopping .684 winning percentage! Juries have already awarded millions of dollars in damages.

To pull a fast one, 3M even tried to file for bankruptcy to avoid further liability which the judge denied. That means it is not too late to join the fight!

3M has a lot to consider because the juries are not persuaded by their deception. As such, our legal team will continue to fight for our heroes. If you, a loved one, or friend served anytime from 2001–2015 and suffered from hearing loss and or tinnitus after using these defective earplugs, there may be a claim for financial compensation.

Call to see if you qualify at **(866) I SUE YOU (866) 478-3968**. Don't delay or your claim could be time barred. Evan M. Ostfeld, P.A. and our co-counsel handle these cases nationally and on a contingency basis. That means there are no upfront attorney fees and costs. You will owe us nothing unless there is a settlement or court award.

Rest assured, we'll even try to secure your medical and department of defense records. Plus, the lawsuit will not impact any service connected disability benefits/claims. We are here to help! Thank you for your service.

HAVE A LAUGH

HAVE A SPOOKY GOOD TIME WHILE KEEPING SAFETY IN MIND

Halloween is all about letting the "ghoul times roll," but monsters and witches aren't the only things parents need to worry about on this holiday. Most older kids don't want an adult chaperoning — they wish to venture off with their friends to enjoy the scary night all on their own. Here are a few safety tips so that you can enjoy the night without worries!

Going with who, plan a route, set a curfew.

Some older kids still love the nostalgia of trick-or-treating, or maybe they plan to pull some Halloween pranks instead? Whatever the reason, they'll want to enjoy the evening with their friends. Knowing who they are going with and where, are good starting points. Possibly setting a curfew time is another. As the adage goes, "bad things happen after 3 a.m" ... That's because young people tend to make poor choices especially when there are no adults around.

Pack the essentials.

Always make sure your child has their phone, a flashlight and of course a big sack to take home their loot! For younger children its best to stroll along with them in their hunt. That was one of my favourite things to do when my kids were very small; now they are both in college! Most important, make sure you tell them bring home some goodies for the "old folks." Baby Ruth, Three Musketeers and Milky Way are preferred!

Pumpkin Pie Parfaits

Inspired by Kenarry.com

These parfaits are an easy fall dessert everyone can make!

INGREDIENTS

- 3.4 oz instant vanilla pudding mix
- 2 cups cold milk
- 15-oz can pumpkin purée
- 1/2 tsp cinnamon
- 1/4 tsp nutmeg
- 1/8 tsp ground cloves
- 1 cup vanilla sandwich cookies
- 8 oz whipped topping

DIRECTIONS

1. In a large bowl, whisk together pudding mix and milk. Let sit for 5 minutes, then stir in pumpkin purée, cinnamon, nutmeg, and ground cloves.
2. In a blender or food processor, crush vanilla sandwich cookies into crumbs.
3. In small jars or glasses, place cookie crumbs on bottom, then pumpkin mixture, then whipped topping. Repeat these layers twice and end with cookie crumbs.
4. Chill until ready to serve!
